To Our Valued Customers:

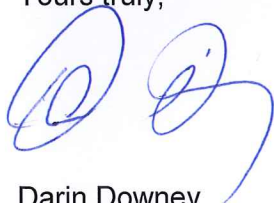

**Re: Essential Freight and Essential Services**

Gardewine and Courtesy Freight Systems move a wide range of diverse freight including groceries, pharmaceuticals, and a variety of general freight to support various industries. When unexpected events occur (Pandemic, Natural Disaster, etc.) and we face abnormal demands on our resources (in particular equipment and drivers) we must focus our efforts toward ensuring essential freight is delivered as our first priority. Essential freight includes (but is not limited to) items such as food, medical supplies and equipment, sanitation materials, and other emergency items.

When these situations arise, we will communicate to our customers regarding disruptions due to capacity issues, and move all freight in order of priority as resource availability permits.

If you have any questions, please do not hesitate to contact us.

Yours truly,

Darin Downey  
President and COO
